Coastal Flooding and Beach Hazards today, High Surf Warning Saturday. Wet weather through the next week

KEY POINTS

- **Rain and wind come through this morning and afternoon**
- **Coastal flooding due to high tides continues through high tide today**
- **Hazardous beach conditions prevail with dangerous conditions Saturday**
- **Periods of rain continue through the next week**

WEATHER RISK OUTLOOK

Risk levels incorporate potential impacts from weather hazards and likelihood of occurrence for a reasonable worst-case scenario.

	Fri 11/13	Sat 11/14	Sun 11/15	Mon 11/16	Tue 11/17	Wed 11/18	Thu 11/19

DETAILS

North Bay	
High Surf	**Impacts:** Dangerously large breaking waves of 25 to 35 ft expected with occasional sets of 40 to 50 ft waves at favored break points. Waves can sweep across the shoreline without warning, pulling people into the sea from beaches, jetties, and rocks. **Timing:** High Surf Warning this evening to Sunday morning **Confidence:** High
	Details: • Long period west/northwesterly swell will result in dangerous surf conditions and localized beach erosion, especially at high tide • Inexperienced swimmers and boaters should stay out of the water • Increased risk for sneaker waves and strong rip currents with these large breakers
Coastal Flooding	**Impacts:** • Today: High tides will result in flooding of low-lying infrastructure, isolated road closures, and coastal erosion. Rising tides will bring water and waves farther up the beach than normal, restricting escape from beaches and coastal areas. • Saturday: Wave runup from high surf may cause flooding of low-lying infrastructure, isolated road closures, and coastal erosion along the Pacific coast and will bring water and waves farther up the beach than normal, restricting escape from beaches and coastal areas. **Timing:** Through high tide today for the San Pablo and San Francisco Bays, Saturday for the Pacific Coast **Confidence:** High today, moderate for Saturday
	Details: At the San Francisco tide gauge, high tide is expected to be: • 1.5 ft above normal (7.3 ft MLLW) at 12:49 PM Friday 11/13 These predictions include up to 1.8 ft of surge that will enhance the astronomical tide and flooding threat. High tide varies up to 90 minutes earlier or later along the Pacific Coast and through the San Francisco Bay, respectively.
Wind	**Impacts:** Increasing southerly winds today with gusts 30 to 40 mph as a cold front passes through. Isolated gusts of 40 to 50 mph possible at the coast, along the Bayshore, and through favored gaps and passes. **Timing:** This morning and afternoon **Confidence:** High
Beach Hazards	**Impacts:** Expect an increased risk for sneaker waves and strong rip currents with breaking waves of 15 to 20 ft. Waves can sweep across the shoreline without warning, pulling people into the sea from beaches, jetties, and rocks. **Timing:** Now to this evening **Confidence:** Moderate
Rain	**Impacts:** Rain today, showers Saturday, Rain Sunday into Monday and again middle of next week **Timing:** Main rain band this morning through this afternoon **Confidence:** High today through Monday, Moderate afterwards
	Details: • Wet roadways will result in slick driving conditions

	• Nuisance flooding is possible in creeks, small streams, as well as other low-lying, poor drainage, urban, and flood-prone locations

San Francisco	
High Surf	**Impacts:** Dangerously large breaking waves of 25 to 35 ft expected with occasional sets of 40 to 50 ft waves at favored break points. Waves can sweep across the shoreline without warning, pulling people into the sea from beaches, jetties, and rocks. **Timing:** High Surf Warning this evening to Sunday morning **Confidence:** High
	Details: • Long period (14-16 seconds) west/northwesterly swell will result in dangerous surf conditions and localized beach erosion, especially at high tide • Inexperienced swimmers and boaters should stay out of the water • Increased risk for sneaker waves and strong rip currents with these large breakers
Coastal Flooding	**Impacts:** • Today: High tides will result in flooding of low-lying infrastructure, isolated road closures, and coastal erosion. Rising tides will bring water and waves farther up the beach than normal, restricting escape from beaches and coastal areas. • Saturday: Wave runup from high surf may cause flooding of low-lying infrastructure, isolated road closures, and coastal erosion along the Pacific coast and will bring water and waves farther up the beach than normal, restricting escape from beaches and coastal areas. **Timing:** Through high tide today for the San Francisco Bay, Saturday for the Pacific Coast **Confidence:** High today, moderate for Saturday
	Details: At the San Francisco tide gauge, high tide is expected to be: • 1.5 ft above normal (7.3 ft MLLW) at 12:49 PM Friday 11/13 These predictions include up to 1.8 ft of surge that will enhance the astronomical tide and flooding threat. High tide varies up to 90 minutes earlier or later along the Pacific Coast and through the San Francisco Bay, respectively.
Wind	**Impacts:** Increasing southerly winds today with gusts 30 to 40 mph as a cold front passes through. Isolated gusts of 40 to 50 mph possible at the coast, along the Bayshore, and through favored gaps and passes. **Timing:** This morning and afternoon **Confidence:** High
Beach Hazards	**Impacts:** Expect an increased risk for sneaker waves and strong rip currents with breaking waves of 15 to 20 ft. Waves can sweep across the shoreline without warning, pulling people into the sea from beaches, jetties, and rocks. **Timing:** Now to this evening **Confidence:** Moderate
Rain	**Impacts:** Rain today, showers Saturday, Rain Sunday into Monday and again middle of next week **Timing:** Main rain band this morning through this afternoon **Confidence:** High today through Monday, Moderate afterwards
	Details: • Wet roadways will result in slick driving conditions

	• Nuisance flooding is possible in creeks, small streams, as well as other low-lying, poor drainage, urban, and flood-prone locations

SF Peninsula	
High Surf	**Impacts:** Dangerously large breaking waves of 25 to 35 ft expected. Waves can sweep across the shoreline without warning, pulling people into the sea from beaches, jetties, and rocks. **Timing:** High Surf Warning this evening to Sunday morning **Confidence:** High
	Details: • Long period (14-16 seconds) west/northwesterly swell will result in dangerous surf conditions and localized beach erosion, especially at high tide • Inexperienced swimmers and boaters should stay out of the water • Increased risk for sneaker waves and strong rip currents with these large breakers
Coastal Flooding	**Impacts:** • Today: High tides will result in flooding of low-lying infrastructure, isolated road closures, and coastal erosion. Rising tides will bring water and waves farther up the beach than normal, restricting escape from beaches and coastal areas. • Saturday: Wave runup from high surf may cause flooding of low-lying infrastructure, isolated road closures, and coastal erosion along the Pacific coast and will bring water and waves farther up the beach than normal, restricting escape from beaches and coastal areas. **Timing:** Through high tide today for the San Francisco Bay, Saturday for the Pacific Coast **Confidence:** High today, moderate for Saturday
	Details: At the San Francisco tide gauge, high tide is expected to be: • 1.5 ft above normal (7.3 ft MLLW) at 12:49 PM Friday 11/13 These predictions include up to 1.8 ft of surge that will enhance the astronomical tide and flooding threat. High tide varies up to 90 minutes earlier or later along the Pacific Coast and through the San Francisco Bay, respectively.
Wind	**Impacts:** Increasing southerly winds Friday with gusts 30 to 40 mph as a cold front passes through. Isolated gusts of 40 to 50 mph possible at the coast, along the Bayshore, and through favored gaps and passes. **Timing:** This morning and afternoon **Confidence:** High
Beach Hazards	**Impacts:** Expect an increased risk for sneaker waves and strong rip currents with breaking waves of 15 to 20 ft. Waves can sweep across the shoreline without warning, pulling people into the sea from beaches, jetties, and rocks. **Timing:** Now to this evening **Confidence:** Moderate
Rain	**Impacts:** Rain today, showers Saturday, Rain Sunday into Monday and again middle of next week **Timing:** Main rain band this morning through this afternoon **Confidence:** High today through Monday, Moderate afterwards
	Details: • Wet roadways will result in slick driving conditions • Nuisance flooding is possible in creeks, small streams, as well as other low-lying, poor drainage, urban, and flood-prone locations

East Bay	
Coastal Flooding	**Impacts:** High tides will result in flooding of low-lying infrastructure, isolated road closures, and coastal erosion. Rising tides will bring water and waves farther up the beach than normal, restricting escape from beaches and coastal areas. **Timing:** Through high tide today **Confidence:** High
	Details: At the San Francisco tide gauge, high tide is expected to be: • 1.5 ft above normal (7.3 ft MLLW) at 12:49 PM Friday 11/13 These predictions include up to 1.8 ft of surge that will enhance the astronomical tide and flooding threat. High tide varies up to 90 minutes earlier or later along the Pacific Coast and through the San Francisco Bay, respectively.
Wind	**Impacts:** Increasing southerly winds today with gusts 30 to 40 mph as a cold front passes through. Isolated gusts of 40 to 50 mph possible at the coast, along the Bayshore, and through favored gaps and passes. **Timing:** This morning and afternoon **Confidence:** High
Rain	**Impacts:** Rain today, showers Saturday, Rain Sunday into Monday and again middle of next week **Timing:** Main rain band this morning through this afternoon **Confidence:** High today through Monday, Moderate afterwards
	Details: • Wet roadways will result in slick driving conditions • Nuisance flooding is possible in creeks, small streams, as well as other low-lying, poor drainage, urban, and flood-prone locations

South Bay	
Coastal Flooding	**Impacts:** High tides will result in flooding of low-lying infrastructure, isolated road closures, and coastal erosion. Rising tides will bring water and waves farther up the beach than normal, restricting escape from beaches and coastal areas. **Timing:** Through high tide today **Confidence:** High
	Details: At the San Francisco tide gauge, high tide is expected to be: • 1.5 ft above normal (7.3 ft MLLW) at 12:49 PM Friday 11/13 These predictions include up to 1.8 ft of surge that will enhance the astronomical tide and flooding threat. High tide varies up to 90 minutes earlier or later along the Pacific Coast and through the San Francisco Bay, respectively.
Wind	**Impacts:** Increasing southerly winds today with gusts 30 to 40 mph as a cold front passes through. Isolated gusts of 40 to 50 mph possible at the coast, along the Bayshore, and through favored gaps and passes. **Timing:** This morning and afternoon **Confidence:** High
Rain	**Impacts:** Rain today, showers Saturday, Rain Sunday into Monday and again middle of next week **Timing:** Main rain band this morning through this afternoon **Confidence:** High today through Monday, Moderate afterwards
	Details: • Wet roadways will result in slick driving conditions • Nuisance flooding is possible in creeks, small streams, as well as other low-lying, poor drainage, urban, and flood-prone locations

Santa Cruz County	
High Surf	**Impacts:** Dangerously large breaking waves of 25 to 35 ft expected with occasional sets of 40 to 50 ft waves at favored break points. Waves can sweep across the shoreline without warning, pulling people into the sea from beaches, jetties, and rocks. **Timing:** High Surf Warning this evening to Sunday morning **Confidence:** Low to moderate due to the swell direction being 270°-300°
	Details: • Long period (14-16 seconds) west/northwesterly swell will result in dangerous surf conditions and localized beach erosion, especially at high tide • Inexperienced swimmers and boaters should stay out of the water • Increased risk for sneaker waves and strong rip currents with these large breakers • Reasonable best case scenario: Less impacts and small to moderate breaking waves will result if the swell direction is northwesterly rather than westerly
Coastal Flooding	**Impacts:** Wave runup from high surf may cause flooding of low-lying infrastructure, isolated road closures, and coastal erosion along the Pacific coast and Monterey Bay and will bring water and waves farther up the beach than normal, restricting escape from beaches and coastal areas. **Timing:** Saturday **Confidence:** Moderate
	Details: At the San Francisco tide gauge, high tide is expected to be: • 1.5 ft above normal (7.3 ft MLLW) at 12:49 PM Friday 11/13 These predictions include up to 1.8 ft of surge that will enhance the astronomical tide and flooding threat. High tide varies up to 90 minutes earlier or later along the Pacific Coast and through the San Francisco Bay, respectively.
Wind	**Impacts:** Increasing southerly winds Friday with gusts 30 to 40 mph as a cold front passes through. Isolated gusts of 40 to 50 mph possible at the coast, along the Bayshore, and through favored gaps and passes. **Timing:** This morning and afternoon **Confidence:** High
Beach Hazards	**Impacts:** Expect an increased risk for sneaker waves and strong rip currents with breaking waves of 15 to 20 ft. Waves can sweep across the shoreline without warning, pulling people into the sea from beaches, jetties, and rocks. **Timing:** Now to this evening
Rain	**Impacts:** Rain today, showers Saturday, Rain Sunday into Monday and again middle of next week **Timing:** Main rain band this morning through this afternoon **Confidence:** High today through Monday, Moderate afterwards
	Details: • Wet roadways will result in slick driving conditions • Nuisance flooding is possible in creeks, small streams, as well as other low-lying, poor drainage, urban, and flood-prone locations

Monterey & San Benito County

High Surf

Impacts:
Dangerously large breaking waves of 25 to 35 ft expected with occasional sets of 40 to 50 ft waves at favored break points. Waves can sweep across the shoreline without warning, pulling people into the sea from beaches, jetties, and rocks.
Timing:
High Surf Warning this evening to Sunday morning
Confidence:
High

Details:
• Long period (14-16 seconds) west/northwesterly swell will result in dangerous surf conditions and localized beach erosion, especially at high tide
• Inexperienced swimmers and boaters should stay out of the water
• Increased risk for sneaker waves and strong rip currents with these large breakers

Coastal Flooding

Impacts:
• Today: High tides will result in flooding of low-lying infrastructure, isolated road closures, and coastal erosion. Rising tides will bring water and waves farther up the beach than normal, restricting escape from beaches and coastal areas.
• Saturday: Wave runup from high surf may cause flooding of low-lying infrastructure, isolated road closures, and coastal erosion along the Pacific coast and Monterey Bay and will bring water and waves farther up the beach than normal, restricting escape from beaches and coastal areas.
Timing:
Through high tide today for the southern Monterey Bay, Saturday for the Pacific Coast and Monterey Bay
Confidence:
High today, moderate for Saturday

Details:
At the San Francisco tide gauge, high tide is expected to be:
• 1.5 ft above normal (7.3 ft MLLW) at 12:49 PM Friday 11/13
These predictions include up to 1.8 ft of surge that will enhance the astronomical tide and flooding threat. High tide varies up to 90 minutes earlier or later along the Pacific Coast and through the San Francisco Bay, respectively.

Wind

Impacts:
Increasing southerly winds today with gusts 30 to 40 mph as a cold front passes through. Isolated gusts of 40 to 50 mph possible at the coast, along the Bayshore, and through favored gaps and passes.
Timing:
This morning and afternoon
Confidence:
High

Beach Hazards

Impacts:
Expect an increased risk for sneaker waves and strong rip currents with breaking waves of 15 to 20 ft. Waves can sweep across the shoreline without warning, pulling people into the sea from beaches, jetties, and rocks.
Timing:
Now to this evening
Confidence:
Moderate

Rain

Impacts:
Rain today, showers Saturday, Rain Sunday into Monday and again middle of next week
Timing:
Main rain band this morning through this afternoon
Confidence:
High today through Monday, Moderate afterwards

Details:
• Wet roadways will result in slick driving conditions

	• Nuisance flooding is possible in creeks, small streams, as well as other low-lying, poor drainage, urban, and flood-prone locations

GRAPHICS

Dangerously Large Breaking Waves

Hazardous Beach Conditions through Friday

High Surf Warning

Weather Forecast Office
San Francisco Bay Area
Thursday, November 12

What

- Dangerously large breaking waves of 25 to 35 feet

Where

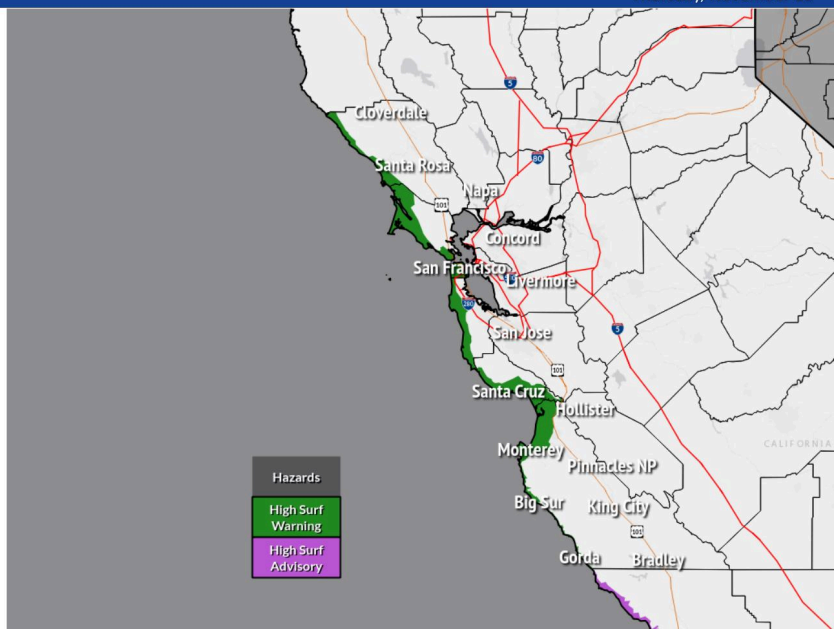

- Pacific Coast beaches

When

- 6 PM Friday through 4 AM Sunday

Impacts & Safety

- Dangerously large breaking waves can overpower swimmers, pulling people into the sea from beaches, jetties, and rocks resulting in serious physical injury and increasing the risk of drowning
- Remain out of the water to avoid hazardous surf
- Never turn your back on the ocean!

High Surf Warning Friday - Sunday

Coastal Flood Advisory

Weather Forecast Office
San Francisco Bay Area
Thursday, November 12

What

- Up to 1.5 ft of inundation above ground level is possible in low-lying areas near shorelines and tidal waterways during times of peak high tides

Where

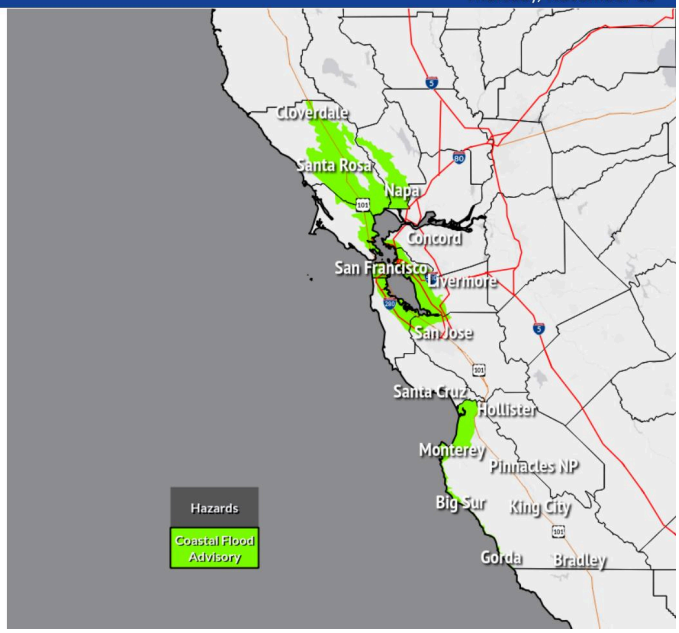

- **Bayshore locations** along the San Pablo Bay, San Francisco Bay, and southern Monterey Bay

When

- Through Friday

Impacts & Safety

- If travel is required, allow extra time as some roads may be closed
- Do not drive around barricades or through water of unknown depth
- Take the necessary actions to protect flood-prone property

Coastal Flood Advisory through Friday

Coastal Flood Advisory

Weather Forecast Office
San Francisco Bay Area
Thursday, November 12

What

- Large breaking waves will run up beaches and crash over seawalls, inundating adjacent low-lying infrastructure

Where

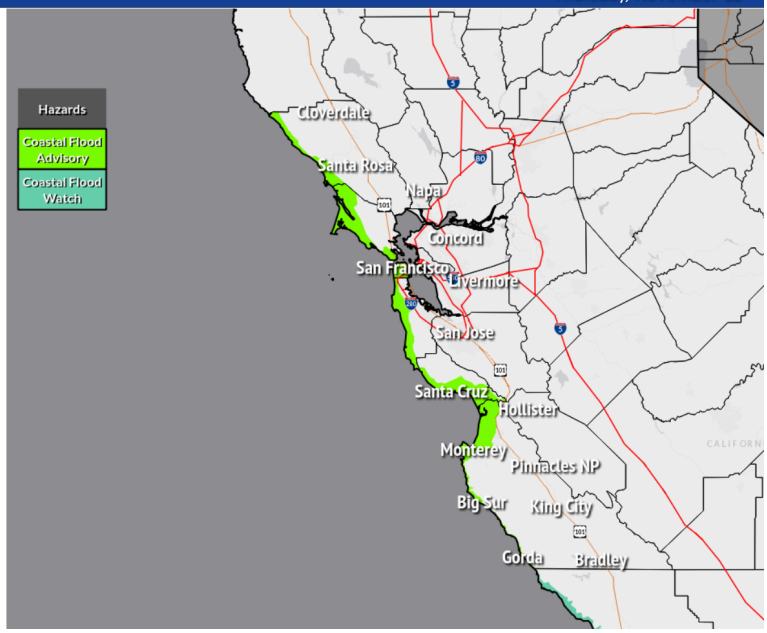

- Pacific Coast

When

- Saturday

Impacts & Safety

- If travel is required, allow extra time as some roads may be closed
- Do not drive around barricades or through water of unknown depth
- Take the necessary actions to protect flood-prone property
- Do not wave watch in vulnerable areas

Coastal Flood Saturday.png

Hazardous Winds

Bay Area and Central Coast

Friday morning and afternoon

Winds will blow around unsecured objects. Tree limbs could be blown down and a few power outages may result.

Wind: 15-30 mph, gusts 30-40 mph, isolated gusts of 40-50 mph possible at the coast and through favored gaps and passes.

Actions to take...

- **Use Extra Caution** *when driving*
- **Park Away** *from trees*
- **Stay Clear** *of downed power lines*
- **Prepare** *for possible power outages*
